

CANYON COUNTY SOLID WASTE

15500 MISSOURI AVENUE
NAMPA, IDAHO 83686

MEMORANDUM

TO: All Landfill Staff

FROM: David M. Loper, REHS/RS, CPM, Director

DATE: February 8, 2022

SUBJECT: Motor Homes/Drivable Vehicles and Recreational Trailers

In recent months, there have been questions raised regarding the acceptance of motor homes and recreational trailers and the process of handling them prior to placing in the daily fill. This memo will serve as guidance on how to handle these waste streams.

Motor Homes/Drivable Vehicles

Pickles Butte Sanitary Landfill does not accept motor homes, buses or any drivable vehicle that requires licensure to operate on public roads. Motor bikes, riding lawn mowers, etc. can be accepted and placed in the metal pile (oil and gas removed).

Recreational trailers

Pickles Butte Sanitary Landfill will accept travel trailers, fifth wheels or other portable recreational units (campers) with the following procedures:

1. Owner or transporter must remove a/c unit from the trailer/camper and place in appropriate transfer station area. **A refrigeration charge will be applied.**
2. Screeners must screen the trailer for tires and other waste that may require charges, or wastes not accepted such as hazardous waste or large volumes of paint, etc.
3. Staff should not enter the trailer/camper.
4. Pickles Butte Sanitary Landfill will remove tires; however, the customers will be **charged for each tire left and an equipment fee.**
