

# *Virtual Stories in Stone Field Trips!*

Our flagship field trip program, **Stories in Stone**, is a place-based archaeological experience designed for students, **4th grade and up**, to engage with the rich cultural and natural history of southwest Idaho.

Students immerse themselves in the landscape of Idaho's first archaeological park, Celebration Park.

Our virtual presentation of this field trip will immerse students in our typical programs.

- \*“Hike” to explore the park’s unique **petroglyph collection**,
- \*Watch a “**Native American lifeways**” presentation,
- \*Explore Idaho’s mining history during a scenic “walk” to the historic **Guffey Railroad Bridge**.

This one-hour field trip combines footage from our beautiful park with fun activities led by our interpretive team. Students will get a taste of the wonders of our park.

Please contact us at [parksprograms@canyoncounty.id.gov](mailto:parksprograms@canyoncounty.id.gov) to schedule!
