**RE: Proposed Conditional Rezone
Willow Creek Subdivision
Letter of Intent**

Dear Cassie,

MDC, LLC and Joseph Carter are proposing to conditionally rezone 164.74 acres consisting of parcels R3751100000 (84.75 acres) and R3751011200 (79.81 acres) from agricultural (AG) to rural residential (RR) to facilitate entitlement for a residential subdivision.

The concept plan consists of 75 developable lots and an existing home lot. The largest lot is 18.73-acres adjacent to the existing home and would be used to carry on nursery activities allowed within the rural residential zone. The concept has lots exceeding 1 acre in size and meeting the minimum average overall lot size of 2 acres for the Rural Residential zone. Public roadways meet the standards of the Canyon County Highway District and provide through connection to all adjacently available public roads (Stony Brook Way and the main entrance from Lansing Ln.). The connections will enhance access for emergency vehicle traffic to all surrounding subdivisions, including Kemp Road, currently a dead end private road. With the densities suggested and multiple inlet/outlets, traffic impacts due the subdivision are anticipated to be minimal. Legal access to the subject property for the rezone request is available currently off Lansing Lane.

The property is located just outside the City of Middleton impact area and thus the owners have contacted the city and are working through filing for pre-annexation to join. The owners have also been in negotiations for providing a utility corridor along Lansing Ln. for future use.

The Willow Creek floodway to the north would be maintained as is with no structures\grading\construction allowed within or encroaching upon its existing boundaries. Portions of the surrounding 100-year AO zone would be raised via the LOMR-F process to ensure all new residential structure pads and sanitary sewer within the zone would be located out of the flood zone.

The current 2020 comprehensive plan specifies the area as residential, however, the current zoning is agricultural. The rezone would facilitate the intent of the comprehensive plan by eliminating possible agricultural activities

2447 S. Vista Avenue • Boise, ID 83705
208-344-1180

within an area that is already predominantly surrounded by residential home\land uses on all sides. West of the project site is Throughbread Estates consisting of identical lots to those proposed and RR zoning. To the south, Willowcreek Ranch Estates 1-3 was developed with 1-2 acre residential lots in early 2003. To the north Willowview Subdivision was constructed as RR and to the southeast across Lansing Lane there are also residential lots. An active AG field is adjacently located on the northeast corner, across Lansing Lane. Due to the nature of the surrounding land uses, the proposed zoning is more appropriate than the current zoning and will enhance the character of the area by eliminating potential heavy equipment, dust, and industrial uses within a predominantly residential area. The rezone will also provide the necessary densities for the area per the comprehensive plan's intent and the growth of Middleton\Caldwell area.

Onsite utilities to be provided to the lots with a mix of private and public systems. Sewer to be provided by private onsite septic\drain field systems for each lot and water to be provide by onsite private wells. Due to the lot sizes being an average minimum lot size of 2 acres, sewer and water are being provided at densities twice the 1 acre minimum established by Southwest District Health guidelines. Drainage is to be retained onsite and\or discharged at predevelopment rates. Onsite pressure irrigation system to be provided using existing water rights to the site. Power will be provided via Idaho Power and other utilities (gas, cable, phone) depending upon availability. At the minimal densities proposed, it is not anticipated that these uses will have an adverse impact on existing facilities and\or geologic impact.

Public school services shall be provided by Mill Creek Elementary, Middleton Middle School, and Middleton High School. Middleton Fire and Polices shall service emergencies. It is unlikely that the low density of the subdivision would impose an undue burden on these services. Rural road sections minimize upkeep and tax revenues generated by the new subdivision can help the various agencies in providing service. The additional roads will enhance access to several of the surrounding subdivisions that only have one entrance.

Please give me a call if you have any questions or comments. Thanks.

Sincerely,

Kent D. Adamson, P.E.

CONDITIONAL REZONE OPTION:

When considering a zoning map amendment (rezone) of a property, a conditional rezone is recommended when considering conceptual site plan and/or addressing potential impacts through mitigation strategies and measures such as restricting uses, limiting the area to be rezoned to retain agricultural uses, and agricultural preservation methods such as buffers and disclosures. Without a conditional rezone, no conditions can be considered as part of the rezone application. Please discuss the conditional rezone option with a DSD Planner prior to application submittal.

The applicant/owner and DSD Planner must sign (below) if the conditional rezone option was discussed and the applicant/owner declined the option.
