Job No. NV0722

Letter of Intent

Canyon County Development Services,

*+ Comprehensive Plan <sup>map</sup> Amendment*

We are requesting a map amendment (conditional rezone) of Parcel R3843501100 from A(agricultural) to RR(Rural-residential). The 6.426 acres is currently designated as agricultural in the 2030 comprehensive plan. The land has no surface irrigation water rights. The land is not used for agricultural production. Sprinkling of the yard and watering the berry bushes is by the domestic well. The adjacent land use is all residential. Most of the parcels were created by the Administrative Land Division process. Outside of those is actual cultivated land which has surface irrigation water, none of which is adjacent to the subject property. Three residential subdivisions are nearby, Stafford Heights, Coombes Subdivision and The Stadium Subdivision.

Access will be taken from existing gravel driveways. Adjacent properties have easement rights along the East and West boundary. We will be adding additional easement width to meet current standards. We will be requesting those easement widths be recognized. The current driveways will be utilized for access to the new lots. All new lots will be served by individual wells and septic systems. The subdivision will only create 2 new buildable lots with one lot being with the existing house. The owner's children are planning on building on the new lots to help the owner keep the property.

The request is consistent with the policies and goals of the comprehensive plan as defined below.

**Private Property Rights**

G1.01.00 Protect the integrity of individual property rights while safeguarding public health, safety, and welfare.

P1.01.01 No person should be deprived of private property without due process of law.

G1.02.00 Acknowledge the responsibilities of each property owner as a steward of the land, use their property wisely, maintain it in good condition and preserve it for future generations without becoming a public nuisance.

**Population**

G2.01.00 Incorporate population growth trends & projections when making land-use decisions.

P2.01.01 Plan for anticipated population and households that the community can support with adequate services and amenities.

G2.02.00 Promote housing, business, and service types needed to meet the demand of the future and existing population.

**Land Use and Community Design**

G4.01.00 Support livability and high quality of life as the community changes over time.

P4.01.01 Maintain a balance between residential growth and agriculture that protects the rural character.

G4.02.00 Ensure that growth maintains and enhances the unique character throughout the County

P4.02.01 Consider site capability and characteristics when determining the appropriate locations and intensities of various land uses.

P4.03.02 Encourage the development of individual parcels and subdivisions that do not fragment existing land use patterns.

G4.04.00

Concentrate future higher density residential growth in appropriate areas in and around existing communities while preserving and enhancing the County's agricultural and rural character.

P4.04.05

Encourage buffering and/or transitional uses between residential and more impactful uses to promote the health and well-being of existing and future residents.

P4.05.01 Promote future development and land-use decisions that do not create hardship for farmers and agricultural operators.

**Transportation Goals, Policies, and Actions**

G8.02.00 Provide safe transportation improvements for all users and connections to adjacent areas.

P8.02.01 Promote public safety through safe design.

**Housing Goals, Policies, and Actions**

G11.01.00 Encourage opportunities for a diversity of housing choices in the County.

P11.01.01 Encourage a variety of housing sizes that meet the needs of families, various age groups, and incomes.

G11.02.00 Maintain the rural character of Canyon County while providing sufficient housing without fragmenting agricultural land and natural resources.

P11.02.01 Encourage subdivisions to locate where adequate services and infrastructure exists or can be provided.

**Agriculture Goals, Policies, and Actions**

G12.01.00 Protect agricultural lands for long-term agricultural production from the encroachment of incompatible uses.

P12.01.02 Encourage non-agricultural related development to the cities, areas of city impact, and other clearly defined and planned development areas.

**Thomas J. Wellard, PLS**  
**Rodney Clark, PE**

The surrounding land use is rural residential. Much of the land surrounding the parcel is not farmable due to no surface irrigation water. This land has been split up for residential use. The subject parcel is not adjacent to any farmed land.

We have not identified any negative impacts to the character of the area. If any are identified, we will address.

We appreciate your consideration of this request and hope you find our application in compliance and approve our request.

Respectfully submitted,

T.J. Wellard, PLS

## NOTES:

1. This development recognizes Section 22-4503, Idaho Code, Right to Farm, which states: "No agricultural operation or an apurtenance to it shall be or become a nuisance, private or public, by any changed conditions in or about the surrounding nongovernmental activities after the same has been in operation for more than one (1) year, when the operation was not a nuisance at the time the operation began; provided that the provisions of this section shall not apply whenever a nuisance results from the improper or negligent operation of any agricultural operation or and apurtenance to it."
2. Water for domestic purposes shall be supplied by single party wells. Sanitary restrictions designating areas reserved for well installation shall be subject to the approval of Southwest District Health.
3. Sewage disposal shall be by individual septic systems. Sanitary restrictions designating areas reserved for the construction of drain fields shall be subject to the approval of Southwest District Health.

4. This development recognizes and is in compliance with Idaho Code 31-3805. The development lies within the Block Canyon Irrigation District but has no surface irrigation water rights.
5. The subject property is currently zoned RR(Rural-Residential).
6. The development is 6.426 acres.
7. This development consists of 3 residential lots.
8. Post development storm water run-off from each lot is to be managed by landscaping measures, swales, ditches and similar retention methods, wholly on the lot generating the run-off. The design, construction and maintenance of these facilities is to be the responsibility of each lot owner.

9. Finish grades at subdivision boundaries shall match existing finish grades. Runoff shall be maintained on subdivision property unless otherwise approved.
10. No permanent structure shall be located closer than seventy feet (70') to any section or quarter line preserved for a future road unless the highway district having jurisdiction waives the seventy foot (70') setback requirement.
11. UNLESS OTHERWISE NOTED, EASEMENT WIDTHS SHALL BE:  
10 FEET ALONG SUBDIVISION BOUNDARY, 5 FEET ON EACH SIDE OF INTERIOR LOT LINES IF A LOT LINE IS MOVED. THE EASEMENT(S) SHALL MOVE WITH THE LOT LINE. PROVIDED THAT UTILITIES HAVE NOT BEEN INSTALLED WITHIN THE EASEMENT(S)
