

FY24/Q4 Budget

Canyon County 4th Quarter Budget For Fiscal Year 2024

Canyon County Clerk of the District Court Ex-Officio Auditor and Recorder

"Serving all of Canyon County in an efficient, accurate and friendly manner"

October 21, 2024

RE: Quarterly Budget Report: 4th Quarter (July-September)

Board of County Commissioners:

Per Idaho Code (IC) 31-1611, enclosed is the Fourth Quarter Fiscal Year (FY) 2024 Budget Status Report. The statute reads:

31-1611. QUARTERLY STATEMENTS. On or before the last day of January, April, July and October in each fiscal year, the county budget officer shall submit to the board of county commissioners a statement showing the expenditures and liabilities against each separate budget appropriation incurred during the time elapsed of the budget period as nearly as practicable, together with the unexpended and unencumbered balance of each appropriation for each office, department, service, agency and institution. He shall set forth the receipts from taxation and from sources other than taxation for the same period and call to the attention of the board of county commissioners any and all facts indicating any possible deficit or excessive expenditure by any officer or employee that the board may take such action as may be deemed necessary and expedient to prevent such possible deficit or excessive expenditure from any appropriation provided for in the county budget.

This quarterly budget report is distinct from and complementary to the county treasurer's reports (IC 31-2112, 31-2113), which are monthly, quarterly, and annually, highlighting the collection and disbursement of moneys. The treasurer reports also highlight fund balances for the respective funds within the county. This quarterly budget report is a distinct statutorily required statement from the "county budget office" (clerk as ex-officio auditor), focused specifically on the moneys collected and spent relative to the respective budget appropriation for offices, departments, etc. The statutory intent is clear that this shall be submitted "on or before the last day of January, April, July, and October..." Idaho Statute allows for up to a month following the respective quarter to provide a report "as nearly as practicable" for the prior period. The intent of the statute is also clear in that this report shall inform you at quarterly intervals throughout the fiscal year to prompt any necessary actions: "...that the board may take such action as may be deemed necessary and expedient to prevent such possible deficit or excessive expenditure from any appropriation provided for in the county budget."

Included is an unaudited report for the fourth quarter of FY24 ran 10/18/24, covering July to September. I would like to thank Sarah Winslow, Steve Onofrei, and Clerk Hogaboam for their hard work in continuing to help prepare and refine this report. We will post these reports on the Canyon County website under the clerk/auditor page as quarterly reports. Steve Onofrei was again instrumental in incorporating some changes in this format over the prior reports. This report is

Canyon County Clerk of the District Court Ex-Officio Auditor and Recorder

"Serving all of Canyon County in an efficient, accurate and friendly manner"

arranged by elected officials and funds to better identify the relationship of the various funds and divisions with elected oversight responsibility. We have updated the report to mimic the budgeting breakout that was completed for FY25. At the end of the fund breakout section, there is a total of operational funds, then the special revenue taxing districts, enterprise funds and ARPA funds are broken out with the total for all county funds below that. Also, since ARPA is a pass-through, where revenues are only realized to match expenditures as a net wash and since ARPA was budgeted at \$38,106,840, this significant amount could alter the perception of total revenues and expenditures. We have combined revenues and expenditures for each fund's report, as opposed to reporting all revenues by fund and then all expenses by fund; this way, you can measure the revenue and expenditures for each fund with a single view.

With this being the end of the FY, statutorily, we are required to keep the budget open until the first Monday in November. The reports that are being provided today do not fully realize all of the revenues and expenditures for the FY. There are still budgetary items being finalized that will impact the final numbers of the reports. One of these items of note will be the sales tax distribution and liquor apportionment that will be received by the county that will apply to this FY. These two revenue line items should bring the current expense revenue to around 100% of what was budgeted.

My goal in this report is in keeping with the statutory language of focusing on "each separate budget appropriation" as it relates to "each office, department, service, agency and institution," calling out any "deficit or excessive expenditure" that may affect the respective budget. I will also review any revenue line items that appear to be over budgeted or underutilized. The attached reports have every line item for you to review. I will highlight in my narrative those items with excessive expenditures that are affecting the budget as a whole for potential recommended action and also look at any potential concerns toward a revenue line.

The following items will be highlighted within the budget for your consideration:

- County Fair Building revenue line was only at 65.6% utilized. This is related to capital grant
 revenue and projects related to the Caldwell Urban Renewal Agency (URA). The corresponding
 expenditure line is also done because projects were not completed. FY25 should be the last
 year of having related items to the Caldwell URA.
- The Recorder's office B budget is over what was budgeted for the FY by \$2,356.65. The Recorder's office also had an increase in revenue over what was budgeted. These items are correlated. With the increase in revenue, there was an increase in demand for some of the fees associated with those services. There is enough extra revenue to cover the B overage.
- The revenue lines for the Prosecuting Attorney (PA) are overall underutilized. The overall revenues for the PA's office are currently at 63.4% recognized. The main factor for this is that the PA's office is still waiting to receive payments from the City of Caldwell and Nampa. The

Canyon County Clerk of the District Court Ex-Officio Auditor and Recorder

"Serving all of Canyon County in an efficient, accurate and friendly manner"

other line is related to the PPD grant that the PA's office is using to start that PPD program. With the program still being newer in FY24 and working to get off the ground, there were not as many participants in the program. With the program getting more outside entities trained and getting more recommendations, there will be more revenue and expenditures associated with this line item.

- Under the PA's budget there is a line for the TVP SAUSA program. This program is unique in that it has its own fund balance that is outside of the PA's budget. The A budget for this line went over by \$7,454.36. This was due to a mid-year salary increase. There is current fund balance to cover this overage that is specifically associated with SAUSA.
- Emergency Management revenue has not been fully utilized due to waiting for additional reimbursement from the EMPG grant. Emergency Management is also still over on their B budget after the initial amendment was done by \$58,156.74. This is because there were additional expenditures related to the grant that had not been processed by the time of the first amendment. The overage in the B budget is related to the SHSP grant. All of the revenue related to this grant has been received and once all of the EMPG grant monies are received, that will cover the overage in the B budget.
- Motor Boat License is over on their A budget by \$5,334.37. This was attributable to OT that was worked and there was a couple of revenue line items that brought in more than what was budgeted and can cover the overage.
- Juvenile Center's B budget had an overall overage of \$3,992.26. The majority of this overage after other B budget savings was related to an increase in the cost of food and to provide food to more individuals housed. There are revenue lines that brought in more money than what was budgeted and can cover the overage.
- Emergency Communications B budget is over the budgeted amount by \$31,570.71. There was a large unplanned expenditure related to system upgrades/changes to the fire stations paging system. This unplanned expenditure was for about \$100K. There are enough A budget savings to cover this overage in the budget.
- Overall, currently the operation funds for the county are sitting at realizing 95.8% of revenues and have 8.9% unspent from what was budgeted for expenditures. For total operational funds for the county, currently, expenditures are \$6,520,287 more than revenues. This will change once the budget is closed and finalized.

With this being the last quarter and the end of FY24, there will be the intent to have additional meetings to appropriately amend the budget to account for expenditure lines that are over budget. These overages can/will be covered by a final budget amendment after all claims and revenues are finalized with additional revenues exceeding expenditures and/or savings in the 'A' budget.
